Insurance

Please use this information as a resource to help you understand your health insurance options.

Student Health and Wellness Fee:

Note that all registered full-time students are assessed a quarterly Health and Wellness Fee which allows them access to the Student Care Center (SCC) and Student Counseling & Resource Service (SCRS).

The dependent spouses or same-sex domestic partners and dependent children age of 14 and older, who are insured through the Student Accident and Sickness Insurance Plan, are also assessed this fee and are entitled to receive services at the Student Care Center and the Student Counseling & Resource Service. Dependents must pay a separate Health and Wellness fee to receive this access. Visit Student Health Care Services for more information.

Insurance:

You can acquire it in one of two ways.

1. You and your student can enroll in one of the university health insurance plans. These plans have effective dates of September 1, 2007 through August 31, 2008. The university also offers a two-week Early Arrival Insurance option for students in need of coverage for any/all of the period August 13 - 31, 2007. Visit Student Health Care Services for more information.

2. You can receive it through your job if you receive such benefits. In this case, your student can waive enrollment by demonstrating proof of comparable coverage through your benefits.
